

## A Tool for Defeating Chaos

Perhaps you have faced a critical presentation, and can't lay your hands on the right report. Your notebook seems in utter chaos despite careful organization and the best of preparation? Silent seconds seem like hours. Your CEO is visibly impatient and the Board members are starting to yawn.

You only get one chance to make a first impression. There is a better way.

Imagine your first presentation. You walk to the podium, pull out a professional looking black, full grained leather folio, flip it open, start the enclosed iPad and display your first report. All reports are neatly catalogued on your iPad, and for safety, back-up web addresses are neatly scribed on the enclosed notabilia composition notebook. No questions faze you. Everything is at your fingertips.

Your CEO smiles, Board members are impressed. You hear murmurs of "professional looking, excellent presentation, great organization" coming from your audience.

"How does he make it look so easy?" comes from your peers.

You sit down amid applause. Your buddy leans over and asks you, "What is that folio you have?"

This is his first introduction to the Levenger Notabilia Leather iPad Folio. It has magnetic flap closures to keep the iPad in place, suede lining so the iPad does not slip, and a gusseted pocket to keep it secure. An enclosed Levenger notabilia composition notebook completes the package in case you need to return to old fashioned pen and paper.

The Levenger Leather iPad Folio can give you peace of mind in stressful times, as well as enhance your first impressions. Be careful your buddy doesn't 'borrow' it!

"How can I get one? How much does it cost?" your friend asks. "What is a great start to a wonderful career worth?" you respond.

You will tell him the price, but first let him know of Levenger's guarantee, "If you are not 100% satisfied, please let us know and we will make it right", quoted from their web site. No buts. No ifs. No questions.

The latest price is \$179.00 as of May 6, 2014 at 11:50 A.M., but supplies are limited and it was on back order two months ago.

He may think the price a little high, but again, remind him that he has only one chance to make a first impression. And, he only needs to buy it once.

You could also remind him that with a Levenger Leather Folio tucked under his arm, he won't need any other symbols of success.
